Tour Ends here, Bon Apetit!

Lead car; Kurt 513 304 1177

Margaret 513 304 1176

Sweepcar; Tom 513 274 8547

Emergency; 911

Be aware of your braking capability and maintain appropriate distance to the car in front you, especially in adverse conditions. Watch out for "The Accordion Effect" where the cars bunch up suddenly. Keep up the pace and keep your fellow driving tour friends in-sight if only occasionally. Periodically we will hesitate at a stop sign to allow the group to queue up so those last in line don't have to speed to catch up. Exercise patience, you won't be left behind. Drive safely and have a good time.
